How physical environment
effect economy in russia ?

In russia they grow crops like
corn they cant sell it so they
wont get money. If the crops
are bad then they can sell
them or if there was the
wrong kind of climate it can
get the in a trouble.

If russia cant grow crops like
corn or grain them they cant
make stuff like with the grain
they can make bread and sell
it to othere parts of the world.

If they don't sell the stuff they
grow there like crops then
they don't get money to feed
the pepole from there.

If russia cant grow crops they
can win money to feed the
pepole that

Physical environment
affects cultural diffusin in
many ways.

A hat in russia that the
soldieres use its like a
tradition they use it for the
winter now its not the only
place its used in more
countries its used to. The
hat is very warm the
soldieres in russia use it for
the winter when its cold
now its used in more
places like in central asia,
germany and more.

Pepole in russia like to
hear music just like the
ones here in the united
states. The music is techno
house music pop.

Cultural difusion goes

around in a lot of places.

Physical environment affects trade patterns in ?

If Russia can't transport their stuff they sell their food or they won't be able to make their money or they won't feed the people in Russia. If people kill in the way the goods won't make it to where they are supposed to go to.

If Russia can't get their goods to another place or to another country they can't make a trade of so if Russia can't complete what they said like if Russia was going to trade with another country because they have other goods Russia needs they can make a trade and if the food Russia is trying to transport to another country and if it does not get there then the other country will not send their stuff to Russia. If it's dangerous to transport the goods they can't win what they win.

If Russia can't trade or sell their stuff they won't get food or money to feed
